

Medicare Creditable Coverage Determinations

Determinations for Products with an Effective Date in 2023

Only the pharmacy classifications below impact determination. Contraception, Out of Network, etc. do not impact determination.

If there is **no prescription pharmacy benefit**, then it is **NOT CREDITABLE**.

If a prescription pharmacy benefit/form is not on this list then it was not evaluated. Please reach out for assistance.

Medicare products with prescription pharmacy coverage are CREDITABLE.

Based on analysis performed 2/10/2023

****Minimum integrated HRA contribution note:**

Reflects the minimum integrated, medical and pharmacy, health reimbursement account (HRA) contribution in order to meet creditable coverage (rounded to nearest \$100).

Assumes the same baseline pharmacy allocation as the integrated deductible and out-of-pocket maximum.

Assumes no rollover of HRA contributions, per CMS regulation.
