Section C: Identifying Functional Criteria for Level of Care

Step 3:

1. Utilize the Rating Sheet below, determine the rating (0, 1, 2, 3) for each item to determine the child/youth's functioning.

2. The “Basic Design for Rating Needs” key listed should be followed when rating the items, along with the support of the CANS-NY Reference Guides ages 0-5 and 6-21(February 2023).
3. Check the box by the rating number assessed as the “Level of need” and “Appropriate action” of the child/youth.

Basic design for rating Needs

Rating	Level of need	Appropriate action
0	No evidence of need	No action needed
1	Significant history or possible need that is not interfering with functioning	Watchful waiting/prevention/ additional assessment
2	Need interferes with functioning	Action/intervention required
3	Need is dangerous or disabling	Immediate action/intensive action required

Step 4: Justification and Supportive Information

1. In the narrative description box, all ratings of “2” and “3” must indicate the information obtained to support the rating and the unique needs of the child/youth to develop a service plan.

**Medically Fragile Home and Community Based Services (MF HCBS)
Decision Support Model: Ages 0 - 5**

Please complete one rating sheet per child/youth.

Rate each item using the action level rating for needs, then identify the criterion met by checking the appropriate boxes. Use the Criteria Threshold formula to determine whether the criteria for Medically Fragile HCBS is met and check 'Yes' or 'No'.
